

## With superior PBT Keycaps

The MasterKeys S is all about wrapping that classic Cooler Master mechanical feel in a sturdy, minimalist tenkeyless design.

Steadfast essentials include on-the-fly macros and switchable layouts. To add that extra touch, we use PBT keycaps and Genuine German CHERRY MX switches. These combined create the sturdier weight and tactile spring that define our mechanical experience.

For those who desire better quality, functionality, reliability and simplicity in a tenkeyless keyboard, look no further than the MasterKeys S.
